Biology Department Photo/Art Contest Rules

Thank you for your interest in the Biology Photo/Art Contest. This contest is open to University of Richmond students, faculty, staff, and alumni. Winning entries may be displayed in Gottwald, included in future University publications, and/or showcased on the Biology website. All submissions may be used in the promotion of UR Biology.

To enter, carefully read the eligibility requirements and selection criteria below and make your submissions prior to the deadline (5 pm, Wednesday, April 6).

Eligibility Requirements
1. All students, international students, exchange students, alumni, faculty, and staff (“entrants”) may participate in the contest.
2. Photo and art submission must be original work (entries from professional photographers are not allowed) and have been captured or produced by the entrant and have relevance to the field of Biology.
3. Entries become the property of the University of Richmond and may be edited and reproduced for publication in electronic or print form.
4. Photos may be color, black and white, and/or sepia and must be submitted as high-resolution digital files.
5. Works of art will be evaluated in photo form, but the expectation is that the originals will be displayed if selected.
6. A maximum of one (1) photo or work of art may be submitted per entrant.
6. Entries must be received on or before the deadline date announced on the website. Late entries will not be accepted.

Prize Selection
The faculty and staff members of the Biology Department Awards committee will be selecting prize winners.

Photo/Art Submissions
Submit high-resolution, digital photos (JPEG preferred) or photo of your work of art by uploading a photo online at Richmond.ca1.qualtrics.com/jfe/form/SV_9yODvL4hf5df9VY

Notes on photo resolution: Photos taken on cameras with at least 4 megapixels will usually yield a high-resolution photo suitable for this contest, provided the camera is capturing the image at its highest resolution setting. Most smartphones capture photos in high resolution, too. Ideally, the largest dimension of your photo—either vertical or horizontal—should be 2000 pixels or greater. Photos with more pixels are preferred.

Works of art should be two dimensional and no bigger than 24” x 24.”

Prizes
Winning entrants will receive prizes and their photograph or work of art may be displayed in Gottwald, included in future University publications, and/or showcased on University websites.

Winners will be announced at the Biology Department end of year banquet on Monday, April 18, 12-1pm, Gottwald Atrium.
